

ALFONSO LOAIZA

Systems Engineer | Senior Frontend Developer

alfonsojloaiza@gmail.com | +58 04247909696 | linkedin.com/in/alfonsoloaiza
Mérida, Venezuela

PROFESSIONAL SUMMARY

Systems Engineer with over 8 years of experience in the full software development life cycle. Expertise in **Angular (V14–V18)**, TypeScript, and frontend architecture. Focused on building scalable, maintainable international solutions, with a strong background in RESTful APIs and DevOps practices.

TECHNICAL SKILLS

- **Frontend:** Angular (V14–V18), TypeScript, Ionic Framework (V7), RxJs, PWA, HTML5, SCSS/CSS3.
- **Backend & APIs:** RESTful API Construction/Consumption, PHP (Laravel), C# (.NET Core, MVC), Java EE.
- **DevOps & Tools:** Azure DevOps (TFS), Git, GitHub, npm, Node.js, Visual Studio Code.
- **Architecture:** Clean Code, Clean Architecture, Repository Pattern, MVC, Component-Based Design, CI/CD.
- **Databases:** SQL Server, MySQL (Familiarity with PostgreSQL).

PROFESSIONAL EXPERIENCE

Angular Mobile Application Developer July 2023 – June 2024
worldsacross.com Remote (LATAM)

- Lead developer for a hybrid Progressive Web App (PWA) using **Angular V17** and **Ionic V7**.
- Integrated robust RESTful APIs (PHP Laravel backend) for real-time class scheduling.
- Utilized Capacitor for deployment across Android and iOS platforms.
- Implemented advanced features (filters, favorite teachers) that improved operational efficiency.

Full Stack Developer (.NET / Web) Dec 2019 – Nov 2022
fullcertificate.com Spain/Remote

- Developed responsive websites and Web APIs using .NET Core and MVC architecture.
- Developed an award-winning private voting application featuring optical mark recognition on scanned paper.
- Implemented Repository Pattern using C#, Entity Framework, and SQL Server.
- Managed version control and continuous integration via **Azure DevOps (TFS)**.
- Built Google Chrome Extensions (Manifest V2 & V3) for video and image capture.

QA Tester & Systems Analysis Nov 2017 – Aug 2018
interfell.com Remote

- Performed QA testing and reported logical bugs via GitHub for the Ticopay billing system.
- Gained experience in production environments with continuous integration (CI) pipelines.

Desktop/Web Application Developer Feb 2015 – Jan 2016
'Facturación SA' Mérida, Venezuela

- Developed a billing application using JavaFX, focusing on CSS-styled desktop interfaces.

EDUCATION

Systems Engineer 2008 – 2014
Santiago Mariño Polytechnic University Institute Mérida, Venezuela

- Degree Project: Design and development of a postal classification system prototype.

ADDITIONAL INFORMATION

- **Languages:** Spanish (Native), English (B2 Level).
- **Community Service:** 320 hours teaching computer literacy programs (2012).
